

According to the FTC, retail businesses lose billions of dollars annually when fraudsters purchase or return goods by using counterfeit driver's licenses.

**QuickScan** from 700Credit is a powerful mobile document scanner that provides dealerships real-time confirmation of the legitimacy of a customer's driver's license and identity at the top of the sales funnel.

# QuickScan Mobile Driver's License Scanner

## KEEP NPI OUT OF YOUR SALES TEAMS' HANDS, IN COMPLIANCE WITH 2022 FTC SAFEGUARDS REGULATIONS

### How It Works

- 1 Using a link sent by the dealer to a customer's mobile device, the customer is guided to capture their document & a selfie
- 2 Facial recognition software checks the selfie against the image on the driver's license to determine a match
- 3 The driver's license is scanned and run through rigorous data & document recognition checks to determine authenticity to
- 4 The customer's mobile device is authenticated
- 5 Information obtained from the license is run against Identity Verification tools to find evidence of fraud

### Each QuickScan Provides:

- Driver's License Verification w/ Selfie Comparison
- Identity Verification w/ Synthetic ID Check
- Device Validation
- Deal Jacket Integrations
- DMV Validation
- OFAC Check
